## kill the sun

i am down at the water  
my bare feet are numb  
and for aeons now nothing seems real  
now it's hard to hold sight  
through your soft eiderdown  
but i still got my hands on the wheel  
you have set my mind  
between worlds spinning round  
i'm a stranger in my universe  
but i see my sun  
and i know that it will  
be forever shining on earth  
you can rain down on me  
but you can't darken the sun  
you can cast a spell on the moon  
but you can't kill the sun

words & music: marco

## mermaids

sigh - for they make you feel alive  
try - it's just one step aside  
fly - over seas of drunken wine  
lie - cause you'll never draw a line  
cry - for they leave you cold and dead  
ride - til the last of suns is set  
don't dive too deep - too deep into the sea  
"come and be a child of the blue  
we make the azure dream come true"  
i drift and fall - sapphire spear inside  
they come for me and softly close my eyes  
fight - for this is your last chance  
"come and be a child of the blue  
leave the past, we make it new  
you will always be our child"

words & music: marco

## ginger

something infests me when i'm alone  
it's lunacy  
i want to vomit, spit out my life  
so queer it seems  
retract your reverence and slander me  
i'm the traitor of mine  
a close-up picture of my lost chastity  
there's nothing left of me anymore  
in gloom i wander, it batters me  
though i subsist of it  
the smell of incense arouses me  
abeyance maddens me  
a ginger sunset is my caress  
as i expire  
as music's fading i fade within  
there's nothing left of me anymore  
and no rain can wash away those bloody tears  
as sweet sounds of destruction reach my ears  
red lips like roses call my name  
but laughter is all the woman of now hears

words: lisa, music: lisa & marco

## she's nirvana

do you dare to taste her soul  
do you like to trick control  
did you think this world was real  
realize this was the deal  
she's ether fire - burns away all the dire  
you will feel her touch for a while  
do you see her through the waves  
do you think it's her who saves  
with a blink of radiant eye  
would you really dare to try  
she's like a fawn - just appears and then gone  
what remains will be just this one song  
she's eternity behind her disguise  
you have almost seen a world in her eyes  
but you've known that it would never be born  
she's flown away like a leaf in a storm  
she's bliss - she's ether - she's dark - she's nirvana

words & music: marco

## forever yours

keeping and holding a star in the sky  
born to be born again with you  
the days of thunder cry their goodbye  
and for the first time i know what to do  
i just keep on being one with you  
loving and fighting the mirror i need  
dearest i'm down on the ground  
waiting to see whereto the storm leads  
it's my blood that bleeds from your wounds  
dearest you're all that i need  
and when i kiss you  
your lips are the only food i need  
your fingertips open  
spaces that make me complete  
forever yours, forever yours  
i'm here to stay  
cause in your arms, in your arms  
i feel so save  
forever  
loving - fighting  
holding - losing  
giving - taking  
wanting forever you

## casablanca

at the temple of black gods i failed again  
for you - a chilvarous end for a man  
clandestine enthralling haze  
a docile sacrifice for your grace  
resurrect from the ban they put on you  
fall again - you will - what they foreknew  
only gods illuminate  
and just a slave to be is my fate  
"and you will hear me  
siren's calls of temptation  
teasing you  
no limit will be  
no taboo of imagination  
i'll fill your void"  
i will always savour you  
as i will always be your fool

words & music: marco

## so you disappear

i breathe the scent of your hair  
your emerald eyes are closed  
there's still some music in the air  
feels like time no more flows  
we sit, you're in my arms  
watching the first daylight gleam  
you say: "i like your warmth"  
a voice just in a dream  
in chaos waters i do swim  
and you're the stone one's thrown into  
a frail creature now gets dim  
as the gold turns into blue  
made me think you were so damn near  
like a bright shining star  
but reaching out you disappeared  
for real you are so very far  
i was dreaming of the wind  
i was dreaming like a child  
a prince and princess fairy tale  
and so you disappear  
i was dreaming of the fire  
of the time when it was wild  
i was dreaming far too sweet  
and so you disappear

words & music: marco

## wisdom

we scintillate like cedar stones  
in plasma veil as ancient ones  
in cold war years you were my fears  
but just to gain the power to reign  
satan's blood in our veins  
the pigfaced mud will be slayn  
but noone dies when blackseas dry  
and noone kill. forever this will  
our wisdom be

words & music: marco

## isis/osiris

"i am birth - i am death  
just an elusive symbol  
for eternal come and go  
for come and go

i have come - i have gone  
i have shown you moira  
and her restless recreation  
your own recreation"

"never, no never the day will go down on me  
within knowing him by my side  
so this, o so this, don't pass me again  
before i know how to heal  
who is shattered by the forces of the night"

words & music: lisa & marco

## calyx virago

fading lights, i sink into  
this other world, where only you  
can heal my wounds and make me see  
only here i am free  
you are the night with all its charm  
glowing darkness keeps me warm  
take my life - just one caress  
let me be forever yours
